CAPABILITY STATEMENT

Safe **O**ption **S**olutions provides safety systems, equipment and training to refineries, councils, mining, electrical authorities, construction and other industrial sites.

Overview: We are active in the promotion and supply of a wide variety of height safety, confined space and rescue equipment, accredited training, on-site crane and mobile plant inspections and installations, site rigging and safety audits, specialist site-wide audits for confined space, height safety, roof safety, guardrailing and ladder inspections, provision of shut-down safety personnel, placement of specialist personnel for specific tasks, materials handling, spill containment, fire safety equipment to mention a few.

We are based in Townsville, North Queensland and have grown out of a desire to provide 'solutions' to industrial site issues, not just sell safety products.

We are dedicated to ensuring our Clients receive quality information and service to assist in solving their site safety issues.

Safe **O**ption **S**olutions offers diversity in the range of products and services to meet specific situations. Information is provided on a broad range of products as we are not 'tied' to any one manufacturer. This means that our Clients have access to all of the latest products and systems, whatever their source.

Our focus on providing a broad range of products, and giving our clients the benefit of our experience and great service has allowed **S**afe **O**ption **S**olutions to develop a significant and satisfied customer base. We aim to grow further by remaining committed to helping solve our Clients' site safety issues.

Our policy is to adopt a high level of service, while offering our Clients cost effective solutions to their site safety issues.
