Advanced Casualty Simulation Kit

For the professional Trainer.

A comprehensive selection of casualty simulations including such realistic bleeding strap-on and stick-on wounds and injuries as compound extremity fractures, various burns, puncture wounds, eviscerations, lacerations, fractures, flesh wounds, fragment wounds, and foreign body protrusions.

Simulation make-up, accessories, and makeup tools are provided for staging "victims" to appear to be in shock or pain, traumatized, lacerated, burned, bleeding, and/or dirty. Bleeding wounds have plastic reservoir pump assemblies to ensure a continuous lifelike flow of simulated blood. All components come in a carrying case with drawers and compartments.
